To Whom It May Concern:

I am writing on behalf of the Liebertz's whom I have known for over ten years. I am a psychotherapist who works at a hospital that deals with addiction and mental illness. I have been a therapist and clinical director at that facility. John and I met early in my work and I was instantly attracted to his way of helping those with substance dependence issues.

Their faith, understanding of addiction, and commitment to those they work with have consistently provided a safe haven for those in their homes. The hospital has referred people to them since our relationship started. John and Candace are always open to taking my calls and trying their best to find a fit for those whom we refer. When possible, he comes to the hospital to do personal interviews. Sadly, COVID has interfered with that process. I continue to encourage those at my hospital and others to use John, Candace, and Galia House as a resource.

John and Candace train and check in with those mentors that live in their homes and have clear boundaries and expectations for those who live in their homes. Their focus is on sobriety.

There is an enormous need for more sober living homes in the great Portland area. I have seen that their model is more effective than most. I hope you will help them with their work in helping those with addiction and mental health issues.

Sincerely,

Stephen Rodgers, LPC, LMFT
